IT ISTRUZIONI D'USO

ATTENZIONE

IT

IMPORTANTE! CONSERVARE LE ISTRUZIONI D'USO PER EVENTUALI RIFERIMENTI FUTURI
Leggere attentamente le presenti istruzioni prima di indossare per la prima volta la fascia!

ATTENZIONE

ATTENZIONE Controlla attentamente e continuamente il tuo bambino assicurandoti che bocca e naso non siano coperti.

ATTENZIONE Consulta un medico prima di usare il prodotto nel caso di bambini prematuri, di poco peso e/o con disturbi.

ATTENZIONE Assicurati che il mento del tuo bambino non sia poggiato sul suo petto per evitare disturbi di respirazione che possano provocare soffocamento.

ATTENZIONE Metti a sedere il tuo bambino in una posizione sicura nella fascia per evitare che possa cadere giù.

Alcune attività richiedono prudenza, ad esempio mentre si cucina o si fanno le pulizie, oppure in prossimità di fonti di calore o di bevande calde.

Utilizza la fascia sempre per portare un solo bambino.

La fascia è stata progettata esclusivamente per portare il tuo bimbo rivolto verso di te.

Il vostro equilibrio può essere compromesso dal movimento vostro e del bambino.

Fare attenzione quando ci si piega o china in avanti o lateralmente.

Non usare la fascia durante l'attività sportiva come corsa, bicicletta, nuoto e sci.

Il rischio di cadere giù dalla fascia aumenta una volta che il tuo bambino diventa più mobile e attivo.

Tieni la fascia fuori dalla portata di bambini quando non in uso.

Controllare regolarmente la fascia per individuare eventuali segni d'usura, inclusi cuciture e stoffa lacerati.
